

# Tuskegee University Plant Genomics & Biotechnology Workshop for School Teachers

The Tuskegee University Plant Genomics & Biotechnology Workshop targets Grade 7-12 school teachers and introduces them to basic concepts and advanced technologies in plant genomics and biotechnology. Selected teachers will participate in a hands-on, interactive 6-day workshop at TU campus from June 16 - June 21, 2014.

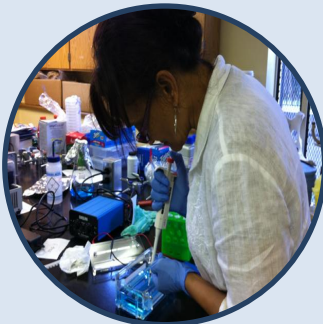

## Requirements:

- ❖ 7<sup>th</sup> - 12<sup>th</sup> grade teacher
- ❖ Current or past experience teaching science (e.g. biology, chemistry, genomics) or related subjects
- ❖ Interest in learning and teaching plant genomics & biotechnology
- ❖ US citizen or permanent resident

## Benefits:

- ❖ Laboratory experience
- ❖ One-on-one teaching & mentoring of student
- ❖ Course materials and other resources
- ❖ Stipend of \$300 for 6-day workshop

**TUPGBW Teacher Scholars** will be selected based upon statement of interest, letter(s) of support and overall strength of application. For detailed information and workshop application contact Dr. C. Prakash or Dr. Jacquelyn Jackson at (334) 724-5953, [jacksonj@mytu.tuskegee.edu](mailto:jacksonj@mytu.tuskegee.edu) or visit: [http://www.tuskegee.edu/plant\\_genomics\\_and\\_biotechnology\\_workshop.aspx](http://www.tuskegee.edu/plant_genomics_and_biotechnology_workshop.aspx).

**APPLICATION DEADLINE: TUESDAY, APRIL 15, 2014**
