Strengthening the National Cyber Security Workforce
NSF CyberCorps® Program

Information Session

TBD
MS-ISSM

- Master of Science in Information Systems and Security Management (MS-ISSM), launched in Fall 2014.
- A 2-year interdisciplinary program offered under a cooperative arrangement with various departments including Computer Science and Business in CBIS.
- Students graduating from this program will help fill the need for well-educated ISSM specialists in the government, private sector, and academia.
- 31 graduate students enrolled in the program currently.
- 37 master students have graduated, and 8 will graduate in May 2019.
Mission/Objective of MS-ISSM Program

- Impart and enhance knowledge about information systems and security
- Expand and develop ability to secure and manage complex information systems
- Instill and nurture social awareness, and the ability to function in a team
- Instill and nurture a sense of legal and ethical issues
- Develop an understanding of strategic and policy issues

Center of Information Assurance Education (CIAE)

- Tuskegee University Center of Information Assurance Education (CIAE) was initially recognized as Center of Excellent by Department of Homeland Security (DHS) and National Security Agency (NSA) in 2012.
- Reaffirmation of CIAE as Center of Excellence in Cyber Defense Education (CAE-CDE), recognized by DHS and NSA in April, 2017, for another 5 years (2017-2022).
- The CIAE at TU servers as organizing body to offer resources and assistance for faculty, students, and community in conducting teaching, research, and other activities in Information Assurance.

CyberCorps® Program

Scholarship for Service

- The National Science Foundation (NSF) has awarded Tuskegee University a total $1.776 million CyberCorps®: Scholarship for Service (SFS) grant for the next five-year period (2017-2022).
- To strengthen the national cyber security workforce.
- To help prepare qualified and well trained professionals in cybersecurity to address the global and national cybersecurity challenges.
- Only about 73 universities, including 3 HBCUs nationwide have this program – highly competitive.
- Provides scholarships that fully fund the typical costs incurred by full-time students while attending a participating institution.
CyberCorps®: Scholarship for Service
Participating Institutions

70 Scholarship for Service Participating Institutions
in 29 states + District of Columbia and Commonwealth of Puerto Rico

SFS Scholars

- Madison Helmsstetter, Graduate, Computer Science
  - NSA, 2018, 2019 Summer Internship
  - Currently Enrolled in MS-ISSM program at TU

- Morgan Screws, Graduate, Computer Science
  - FBI, 2018, 2019 Summer Internship
  - Currently Enrolled in MS-ISSM program at TU
TU Faculty in SFS Team

- Dr. Charlotte Morris, Interim President of Tuskegee University
- Dr. Faye Hall Jackson, Professor of Management Department
- Dr. Fan Wu, Head and Professor of Computer Science Department
- Dr. Li Jiang, Professor of Electrical and Computer Engineering Department
National Science Foundation
and
The Department of Homeland Security
hereby certify that
Tuskegee University
is a member of the
CyberCorps®: Scholarship for Service (SFS) Community

based on the grant awarded by the National Science Foundation to
Tuskegee University for the support of the CyberCorps® project entitled
“Collaborative Research: SFS Program:
  Strengthening the National Cyber Security Workforce”
under the direction of Fan Wu, Faye Jackson, Li Jiang, Charlotte Morris and Hira Narang,
for a period of five years starting January 2017

Victor Piorowski, Ph.D., Lead
CyberCorps®: SFS, NSF

Daniel Stein, Program Director
National Cybersecurity Training and Education Program, DHS
Two Cohort Programs

- B.S. + M.S.* (3 years)
  One senior year + two master graduate years
- M.S. (2 years)
  Two master graduate years

* M.S. in Information Systems and Security Management
Benefits

- Tuition (up to 19 credits for undergraduates, up to 9 credits for graduate students per academic semester)
- Stipend of $22,500 for undergraduates, $34,000 for graduate students per year
- A health insurance reimbursement allowance of up to $2,000 per year
- A professional development allowance of up to $4,000 per academic year
- A book allowance of up to $1,500 per academic year
Major Obligations

- All scholarship recipients are required to complete an internship and work for a federal, state, local or tribal government organization in a position related to cybersecurity for a period equal to the length of the scholarship after graduation.

- If a scholar does not meet the obligations, the scholar will be required to repay to Tuskegee University the monies received under the scholarship. This includes scholarship money for tuition and fees, stipend, professional development, and any administrative and interest fees associated with repayment processes.
SFS Website: www.sfs.opm.gov

CyberCorps®: Scholarship for Service

Scholarship For Service (SFS) is a unique program designed to increase and strengthen the cadre of federal information assurance professionals that protect the government’s critical information infrastructure. This program provides scholarships that fully fund the typical costs that students pay for books, tuition, and room and board while attending an approved institution of higher learning. Additionally, participants receive stipends of up to $8,000 for undergraduate and $12,000 for graduate students. The scholarships are funded through grants awarded by the National Science Foundation (NSF).

Warning: A vulnerability has been identified with viewing PDF forms from a public computer (i.e. library or coffee shop). Information in the Adobe form is cached thereby allowing another user to view your Personally Identifiable Information commonly referred to as PII. Until this vulnerability has been corrected by Microsoft and Adobe, we would recommend that you not use public computers to access or enter your personal information. If you cannot avoid using a public computer, click on the link to view instructions on how to manually clear the cache after use. Once the vulnerability has been corrected this message will no longer appear. We apologize for any inconvenience this may cause. Thank you.
Eligibility and Admission Requirement

• A 3.0 minimum GPA.
• Demonstration of legitimate interest in, and commitment to, pursuing IA-related careers after graduation.
• Compliance with all program requirements, including US citizenship or permanent residence and eligibility for US Government security clearance.
• Documented interest in, and dedication to, public service.
• Strength and resiliency of professional character to be gleaned through an interview (held either in person or remotely via a VoIP session).
