The National Science Foundation (NSF) has awarded Tuskegee University a total $1.776 million CyberCorps®: Scholarship for Service (SFS) grant to help prepare qualified and well trained professionals in cybersecurity to address the global and national cybersecurity challenges. The NSF’s CyberCorps: Scholarship for Service is a highly prestigious and competitive program. With this grant, Tuskegee University became a member of a distinguished group of 73 institutions national wide, that have already begun training the future information assurance professionals who will help protect our nation. This SFS grant will provide senior undergraduate students and students applying to or currently pursuing a Master of Science in Information System and Security Management (MS-ISSM) degree scholarships including tuition, stipends, health insurance, book allowance, and professional development allowance. The MS-ISSM program is a unique interdisciplinary program between business and computer science in the College of Business and Information Science. The SFS grant will help us strength our MS-ISSM program while contributing to the national cybersecurity workforce.

Each scholarship provides the following benefits:
- Tuition (up to 19 credits for undergraduates, up to 9 credits for graduate students per academic semester)
- Stipend of $22,500 for undergraduates, $34,000 for graduate students per year
- A health insurance reimbursement allowance of up to $2,000 per year
- A professional development allowance of up to $4,000 per academic year
- A book allowance of up to $1,500 per academic year

*All scholarship recipients are required to complete an internship and work for a federal, state, local or tribal government organization in a position related to cybersecurity for a period equal to the length of the scholarship after graduation.*

Eligibility and Admission Requirement:
Applicants will be evaluated based on academic transcripts, awarded degrees, letters of recommendation and comprehensive statements of career goals and objectives. The specific criteria include:
- A 3.0 minimum GPA.
- Demonstration of legitimate interest in, and commitment to, pursuing IA-related careers after graduation.
- Compliance with all program requirements, including US citizenship or permanent residence and eligibility for US Government security clearance.
- Documented interest in, and dedication to, public service.
- Strength and resiliency of professional character to be gleaned through an interview (held either in person or remotely via a VoIP session).
