

Tuskegee University Virtual Plant Genomics & Biotechnology Workshop for School Teachers June 28-30th, 2022

The Tuskegee University Plant Genomics & Biotechnology Workshop targets Grade 7-12 school teachers and introduces them to basic concepts and advanced technologies in plant genomics and biotechnology. Selected teachers will participate in a virtual 3-day workshop conducted by Tuskegee University June 28-30, 2022.

Requirements:

- ❖ 7th- 12th grade teacher
- ❖ Current or past experience teaching science (e.g. biology, chemistry, genomics) or related subjects
- ❖ Interest in learning and teaching plant genomics & biotechnology
- ❖ US citizen or permanent resident

Benefits:

- ❖ Virtual lab experience. Lab manuals.
- ❖ One-on-one teaching & mentoring
- ❖ Class room kit provided, Certificate and Stipend \$300

TUPGBW Teacher Scholars will be selected based upon statement of interest and overall strength of application. **Deadline for Applications are May 31st, 2022.** For detailed information and workshop application contact Dr. Jacquelyn Jackson at (334) 724-4953, jjackson1@tuskegee.edu.
