Tuskegee University
Virtual Plant Genomics & Biotechnology
Workshop for School Teachers
June 28-30th, 2023

The Tuskegee University Plant Genomics & Biotechnology Workshop targets Grade 7-12 school teachers and introduces them to basic concepts and advanced technologies in plant genomics and biotechnology. Selected teachers will participate in a virtual 3-day workshop conducted by Tuskegee University June 28-30, 2023.

Requirements:

- 7th-12th grade teacher
- Current or past experience teaching science (e.g. biology, chemistry, genomics) or related subjects
- Interest in learning and teaching plant genomics & biotechnology
- US citizen or permanent resident

Benefits:

- Virtual lab experience. Lab manuals.
- One-on-one teaching & mentoring
- Certificate and $300 Stipend

TUPGBW Teacher Scholars will be selected based upon statement of interest and overall strength of application. Deadline for Applications is April 30th, 2023. For detailed information and workshop application, contact Dr. Jacquelyn Jackson at (334) 724-4953, jjackson1@tuskegee.edu. Application link: https://forms.gle/ZKkZ63TycwDNNSyy9
