

# **Tuskegee Veterinary Scholars Program (TVSP) 2025**

***Experience High Quality  
Biomedical Research  
Right here at HOME***

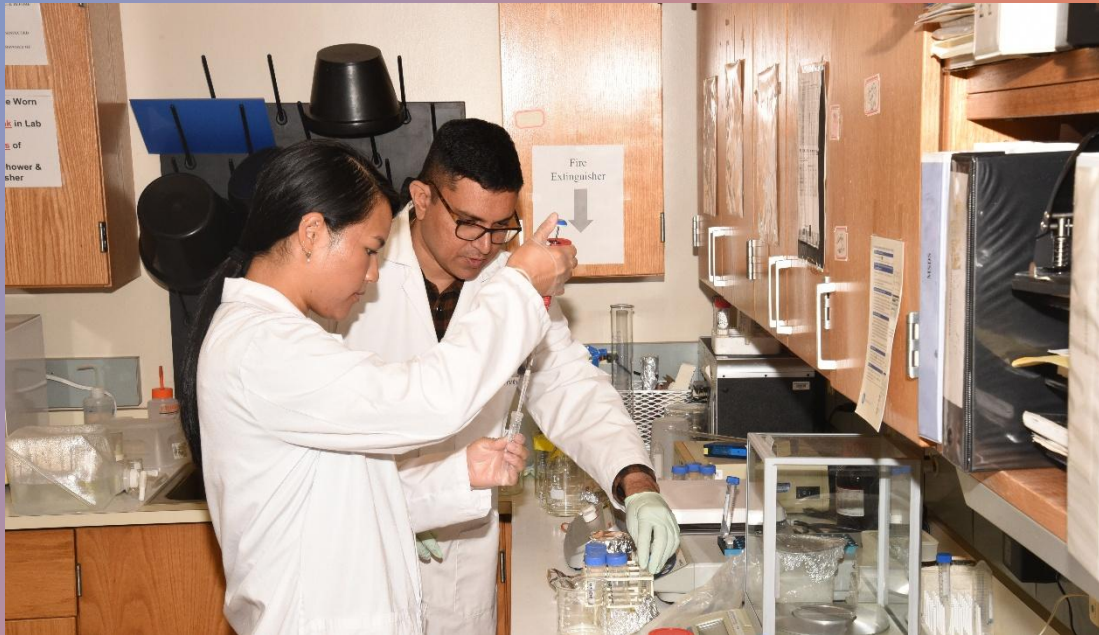

**Tuskegee University  
College of Veterinary Medicine**

# TVSP Program Description

- Runs for 12 weeks from May 19, 2025
- Purpose is to expose veterinary students to research and introduce them to research-oriented career options thru various activities
- Each student will work on a project with a Faculty Mentor
- Students present their work at a symposium
- Social activities and potential day trip/s to Medical Center for Comparative Medicine, Jackson, MS; Emory University Primate Lab, Atlanta, GA; or Auburn State Diagnostic Lab, Auburn, AL

# Process

Application: now through March 3, 2025

Award Notification by Friday, March 14, 2025

Start research on Monday, May 19, 2025

*Only accepted will be notified*

# Application

- Go to: <https://www.tuskegee.edu/programs-courses/colleges-schools/cvm/cvm-tuskegee-veterinary-scholars-program-tvsp>
- Click the “[Apply to TVSP](#)” link and fill out the form. Fill only what applies to you.
- Please Check-mark all three program options, unless you do not want to be considered for one or more of the sub-program options.

# TU-MSU partnership T35 Summer Research Experience

- You may also do summer research at Mississippi State University College of Veterinary Medicine, our partner.
- If you would like to directly apply to MSU, please follow this link:  
<https://www.vetmed.msstate.edu/research/summer-research-experience/about>
- Please let us know if you need help with the application. MSU contact info is below.

# Options

## HHS-COE option

- 12 weeks research in TUCVM
- Symposium presentation at TU One Health Symposium (September) or elsewhere

## T35 collaboration with Mississippi option

- 12 weeks at TU or MSU
- Symposium presentation in Spokane, WA and at TU One Health Symposium

## Boehringer Ingelheim Scholar option

- 12 weeks at TU
- Symposium presentation at Spokane, WA and TU One Health Symposium

Stipends are about \$600/week rates for 2025 (may be higher, TBD)

2<sup>nd</sup> year veterinary students have the option of doing clinics-based research if they find a mentor; 1<sup>st</sup> year veterinary students work mainly with basic science faculty or projects.

During the program, an option to work two weeks with a clinical faculty for a clinical experience.

Lots of Educational and Professional Development activities besides research.
