

Youngsoo Kim, Assistant Professor, Department of Mathematics, Tuskegee University

Publications

1. (Book) With Kim, Tameru, Yan, A Basic Approach to PreCalculus Trigonometry, Preparing to Succeed in Calculus, Cognella, 2016
2. On Semistability of Perfect Lattices, Alabama Journal of Mathematics, Volume 39 (2015)

Presentations at National Conferences

1. Standard Vector Bundles, Southern Regional Algebra Conference, University of Louisiana at Lafayette, March 13-15, 2015
2. A Faculty Perspective: Online/Blended Learning, IT'N2 Technology Conference, Tuskegee University, 2013
3. Semistability of root lattices and perfect lattices, Joint Mathematics Meetings, San Diego, 2013
4. Motivic symmetric ring spectrum representing algebraic K-theory, Joint Mathematics Meetings, San Francisco, 2010

Seminar Presentations

1. with Dr. Garrett and Dr. Huang, Personal Authenticity in College Mathematics, Math Education Seminar, Auburn University, Apr 6, 2016
2. Motivic K -theory Symmetric Ring Spectrum, Topology Seminar, University of Louisiana in Lafayette, Apr 2015 (invited talk)
