

**Tuskegee University
College of Veterinary Medicine**

Biomedical and Laboratory Safety Training Documentation Form

This Section is for Identification Purposes Only			Initials
Trainee Name: (Last, First, Middle Initial)			
Principal Investigator (PI)/Trainer Name: (Last, First, Middle Initial)			
Printed Trainer Name: (Last, First, Middle Initial)			
General Training Documentation			
Training Conducted	Training Date	Trainee Initials	PI/Trainer Initials
Basic Laboratory Safety			
Chemical/Medical/Lab Waste Management			
Emergency Response			
Laboratory-Specific Training (Corrosives, flammables, explosives, unstable chemicals, carcinogenic, mutagenic, teratogenic, compressed gases, human blood/blood products, radioactive materials)			
Training Conducted	Training Date	Trainee Initials	PI/Trainer Initials
Additional or Recommended Training			
Training Conducted	Training Date	Trainee Initials	PI/Trainer Initials
Extended Biosafety (e.g. pathogens, toxins, ...)			
Bloodborne Pathogens			
Human Infectious Agents			
Recombinant DNA			

I have been trained on and/or read and understood the above-mentioned items. I understand it is my responsibility to comply with the Tuskegee University Lab Safety Manual and Biosafety Manual and all other University policies and procedures. I will request additional information whenever I am unsure of a process or procedure and I will do so before proceeding.
