

Tuskegee University College of Veterinary Medicine

Minimum Computer Hardware & Software Requirements for Learning Management System (LMS) and Exemplify utilization.

To support the College's digital testing environment, all incoming veterinary students are required to have a personal device that meets the following specifications, based on ExamSoft's current guidelines:

Supported Operating Systems

- **Windows 11 (64-bit)**
- **macOS 12.0 or higher**
- **iPadOS 15.0 or higher** (if using Exemplify for iPad)

Note: Chromebooks, Android devices, and Linux systems are not supported.

Hardware Requirements

- **Processor:** Intel or AMD processor for Windows; Apple M1/M2 or Intel for macOS
- **RAM:** Minimum of **8 GB** (16 GB recommended for optimal performance)
- **Hard Drive Space:** At least **4 GB OF FREE SPACE**.
- **Screen Resolution:** Minimum **1024 x 768**; scaling should be set to **100%** to avoid display issues
- **Internet Access:** Required for downloading exams and uploading results

Mobile Device Requirement for Security Access

In addition to a compliant computer, **all students must have a current Android or Apple smartphone.**

- This device is required to enable **Multi-Factor Authorization (MFA)**.
- MFA is a critical security feature that protects student accounts and ensures secure access.
- MFA is integrated with **Tuskegee University's Single Sign-On (SSO)** system, which students must use to log in to university platforms and services.

Note: Without a current smartphone capable of running MFA applications, students will not be able to successfully access required university systems.

Additional Notes

- Examplify performs system checks before each exam. If your device does not meet the minimum requirements, you may be unable to proceed with the exam until the issue is resolved.
- Students are responsible for maintaining their devices and ensuring all updates are installed prior to exam sessions.
- Devices should be purchased within the last **3–4 years** to ensure compatibility and performance.

Institutional Expectations

Tuskegee University College of Veterinary Medicine integrates technology into its academic and assessment processes. As such, students must arrive with a **fully compliant device** and maintain it throughout their enrollment. This ensures seamless participation in secure, computer-based testing environments.

For full details and updates, students should refer to ExamSoft's official system requirements.
