Tuskegee University Crime, Fire and Safety Report

**1. JEANNE CLERY DISCLOSURE OF CAMPUS SECURITY POLICY AND
CAMPUS CRIME STATISTICS ACT, AS AMENDED BY THE VIOLENCE
AGAINST WOMEN REAUTHORIZATION ACT OF 2013 (VAWA)
for incidents reported in 2025**

Compiled by:

Darrius D. Jones, Chief of Police And Public Safety

The Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act requires institutions of higher education to produce and distribute an annual report containing information on their campus crime statistics and campus security policies. In accordance with that requirement, Tuskegee University Police Department and the Title IX Office, working with partners across campus, has prepared this report. Tuskegee University ("TU," "Tuskegee," or "University") distributes this report annually to all students and employee via an email notice containing a link to this electronic version of the report. Any applicant for admission or employment may receive a copy on request.

OVERVIEW

Tuskegee University (TU) is committed to providing a safe and secure environment for all faculty, staff, students and visitors. Located in the heart of the City of Tuskegee in Macon County Alabama, TU is the county's largest employer and provides an institution of higher education and research for approximately 3,000 students and 800 employees. Founded in 1881 with Booker T. Washington as its first Principal, the campus has grown from a one-room shanty to over 100 buildings situated on over 5,000 acres of land.

TU is a city within a city, providing faculty and student housing, food services venues, a hotel and conference center, research and classroom facilities, as well as an athletic/fitness center. No campus is isolated from crime; however, TU employs a variety of security measures to protect the campus community. All persons who come to campus are expected to obey all laws and University and department rules related to the use of each facility. Those who fail to comply are subject to arrest and/or disciplinary action through the University.

3. JEANNE CLERY DISCLOSURE OF CAMPUS SECURITY POLICY AND CAMPUS CRIME STATISTICS ACT, AS AMENDED BY THE VIOLENCE AGAINST WOMEN REAUTHORIZATION ACT OF 2013 (VAWA)

Tuskegee University prohibits the offenses of domestic violence, dating violence, sexual assault and stalking (as defined by the Clery Act) and reaffirms its commitment to maintaining a campus environment that emphasizes the dignity and worth of all members of the University community.

For a complete copy of TU's policies governing Sexual Violence, visit the university webpage at <https://www.tuskegee.edu/policies>.

4. Campus Law Enforcement Location

The **Tuskegee University Police Department (TUPD)**, in conjunction with the **Tuskegee University Department of Public Safety (DPS)**, is headquartered in the **Public Safety and Legal Services Building**, located directly across from the University's main entrance at Lincoln Gates. Together, TUPD and DPS operate on a **24-hour, 7-day-a-week basis**, remaining fully staffed and accessible **year-round—including weekends, holidays, and academic breaks**.

5. Responsibilities

Working in close coordination, **TUPD and DPS** are entrusted with the **protection of life, property, and the overall safety of the campus community**. Officers and safety personnel maintain a constant patrol presence across University grounds and deliver a comprehensive range of public safety services, including:

- **Investigating and reporting** all criminal incidents, traffic accidents, and suspicious activity.
- **Serving as first responders** to emergencies, including medical, fire, and law enforcement situations.
- **Documenting incidents** through detailed criminal and traffic reports.
- **Delivering proactive education and prevention programs** that strengthen crime awareness and campus safety.

When a criminal act is reported, TUPD, in collaboration with DPS, conducts a **thorough, professional investigation** and makes every reasonable effort to identify, apprehend, and hold the offender accountable. Based on the **victim's wishes, the severity of the offense, and the evidence collected**, cases are prepared and referred for prosecution through the **State of Alabama criminal court system**.

In addition, when the alleged offender is a member of the Tuskegee University community, TUPD and DPS ensure that the case is also referred to the **appropriate University administrator** for possible disciplinary action under institutional policies. This dual accountability—both criminal and administrative—underscores the University's commitment to **justice, safety, and community standards**.

6. Clery Act Compliance

The **Tuskegee University Police Department (TUPD)** and the **Department of Public Safety (DPS)** are the University's **primary Clery Act reporting authorities**. They are responsible for ensuring that all reportable crimes are accurately classified, documented, and published in the **Annual Security & Fire Safety Report** and the University's **Daily Crime Log**. This responsibility affirms the University's compliance with federal law while ensuring transparency, accountability, and the continued safety of the campus community.

Training

Officers are professionally trained and certified in accordance with the Alabama Peace Officer's Standards and Training Commission and attend continuing in-service training programs to further their skills. The State of Alabama requires all certified law enforcement officers to complete annual firearms certification and continuing educational training (a minimum of 12 hours for officers and 20 hours for chief). In raising the standards, some officers have graduated from the FBI National Academy.

The Tuskegee University Police Department actively investigates any credible crime information it receives that concerns or involves a member of the campus community.

22. When the University is notified of a crime, TUPD may issue a Crime Alert to keep the campus informed, describe the incident, and provide prevention tips so community members can take steps to protect themselves and avoid similar risks.

23. Stay Informed

The **Tuskegee University Police Department (TUPD)** uses multiple communication tools to keep the campus community informed about incidents on and near campus.

- **RAVE Safety App:** Tuskegee University utilizes the **RAVE Mobile Safety system**, a campus-wide alert application that delivers real-time emergency notifications, crime alerts, severe weather warnings, and other critical safety messages directly to your mobile device. All students, faculty, and staff are strongly encouraged to download and use the **RAVE app** to receive instant alerts and important safety updates.

Access to Campus Facilities and Residence Halls

26. Enhanced Security Procedures

Tuskegee University has implemented **enhanced security procedures** to strengthen the safety and well-being of our campus community. These measures are designed to ensure that access to University property is appropriately managed and that all students, faculty, staff, and visitors can learn, work, and live in a secure environment.

Access Control

- **Entry Points:** Campus entry points are actively monitored by the **Tuskegee University Police Department (TUPD)** and the **Department of Public Safety (DPS)**.
- **University ID Requirement:** Students, faculty, and staff are expected to carry their University-issued ID card at all times and present it upon request. They must swipe their University ID card at the entry gates to enter campus.
- **Visitor Management:** Guests and visitors must check in at designated entry points. They must pick up an entry pass or card to enter campus. They can provide identification and the purpose of their visit on the online form to get a visitor ID card.
- **Housing Security:** Residence halls and University-owned housing facilities are secured with card access and accessible only to assigned residents, their registered guests, and authorized staff. Exterior doors of the residence halls are locked twenty-four hours a day. A resident's individual room key also unlocks the main door. A resident must escort all visitors through the residence halls. In the event of a lost key, the student's room locks are changed.

Staff Training- All Residence Life staff members undergo thorough training on enforcing residence hall security policies. As part of the responsibility for residence hall security, all staff members participate in lectures and seminars that are conducted by University administrators and police and associated with the safety and security of the campus.

27. SECURITY CONSIDERATIONS IN THE MAINTENANCE OF CAMPUS FACILITIES

The University is committed to campus safety and security. Exterior lighting and landscape control is a critical part of that commitment. More lights and security cameras

have been placed on campus. Representatives from various departments continually conduct security surveys to ensure campus lighting is adequate and that the landscape is appropriately controlled. Department members conduct routine checks of lighting on campus during regularly assigned patrol duties. If lights are out or dim, officers will initiate an immediate work order, which is acted upon by a representative of the appropriate maintenance office.

We encourage community members to report any deficiency in lighting to Facilities at (334) 727-4415. Any community member who has a concern about physical security should contact TUPD at (334) 727-8757.

Representatives from the **Tuskegee University Police Department (TUPD)**, the **Department of Public Safety (DPS)**, and the Physical Plant work collaboratively to identify and address inoperative locking mechanisms on a continual basis to ensure campus facilities remain secure.

We encourage community members to promptly report any locking mechanism deficiency to Physical Plant Operations at (334) 727-4415, or to TUPD at (334) 727-8757. Maintenance staff is available to respond to calls for service regarding unsafe facility conditions or for personal safety and property protection.

These conditions also may include unsafe steps or handrails, unsafe roadways on campus, and unsecured equipment.

Off-Campus Housing and University Responsibilities

Tuskegee University owns and manages certain off-campus residences reserved for senior staff and administrators, and it also contracts off-campus housing for upper-class students, such as **The Connections in Auburn**. While the **Tuskegee University Housing Department and the University do not provide 24-hour supervision of off-campus housing, apartments, or private residences**, the University is committed to student safety in all living environments.

- **Law Enforcement Partnerships:** Off-campus student residences such as The Connections are actively patrolled by the **Auburn Police Department** in partnership with a **private contracted security firm**. TUPD maintains regular communication with these agencies to ensure safety concerns are monitored and addressed.
- **Crime Reporting:** Whether a student resides on or off campus, they are strongly encouraged to report all crimes or suspicious activity to the appropriate law enforcement agency. Reports made to **University administrators** are promptly forwarded to **Tuskegee University Police Department (TUPD)** for follow-up.
- **Timely Warnings:** If a reported crime or serious incident presents an ongoing threat to the safety of the campus community, **TUPD will coordinate with law enforcement partners** to issue a **Crime Alert** or other timely warning notification, in compliance with the **Clery Act**.
- **Shared Responsibility:** Off-campus incidents reported by surrounding municipalities are also shared with TUPD to strengthen awareness, data collection, and community safety initiatives.

Primary Education and Awareness Programs

The term primary education refers to programming, initiatives and strategies intended to bring awareness to domestic violence, dating violence, sexual assault, or stalking before it occurs to educate students on risk factors and signs before initial perpetration or victimization through the promotion of positive and healthy behaviors and beliefs. Efforts to change behavior and social norms, and promote healthy relationships, healthy sexuality and egalitarian gender roles, or efforts to understand risk factors and protective factors for bystander inaction and change social norms around bystander inaction are all examples of primary prevention.

Ongoing Education and Awareness Programs

The term ongoing awareness and education campaigns refers to campaigns that are sustained over time focusing on increasing awareness or understanding of topics relevant to crime reduction. These programs will occur at different levels throughout the institution (i.e. faculty, athletics, and incoming students) and will utilize a range of strategies. Ongoing awareness and education campaigns may include information about what constitutes sexual assault, dating violence/intimate partner abuse, and stalking, changing social norms, promoting recognition of perpetrator tactics, enhancing understanding of consent, and advancing prosocial behaviors of individuals and communities. Effective ongoing awareness and education campaigns will include developmentally appropriate content for the specific audience and their knowledge and awareness level and provide positive and concrete ways for individuals to get involved.

Sex Offender Registration

The Federal Campus Sex Crimes Prevention Act, enacted on October 28, 2000, requires institutions of higher education to issue a statement advising the campus community where law enforcement agency information provided by a State concerning registered sex offenders may be obtained. It also mandates sex offenders already required to register in a State to provide notice, as required under State law, of each institution of higher education in that State at which the person is employed, carries on a vocation, volunteer services or is a student.

In Alabama, convicted sex offenders must register with the sheriff of the county of his or her legal residence. Information on Registered Sex Offenders can be obtained at the TU Police Department or on the Alabama Department of Public Safety's website: <https://www.alea.gov/dps>, located under the Sexual Offenders link.

30. Distribution of Timely Warnings

The Tuskegee University Police Department (TUPD), in conjunction with the Department of Public Safety (DPS), issues timely warnings to ensure the campus community is quickly informed of certain crimes that may pose a serious or continuing threat. These warnings are designed not only to notify, but also to aid in the prevention of similar crimes.

Communication Systems

- **TU Secure:** The University's emergency notification system sends messages through voice calls, SMS text messages, and emails simultaneously to the entire campus community. TU Secure also integrates with Facebook and Twitter to expand outreach.
- **RAVE Mobile Safety App:** To replace TigerAlert, Tuskegee University utilizes the RAVE app, which delivers instant push notifications to mobile devices. RAVE provides students, faculty, and staff with real-time emergency alerts, safety updates, and critical instructions wherever they are. All community members are strongly encouraged to download and activate the RAVE app for immediate access to alerts.
- **Website Posting:** Alerts are published on the TUPD website at www.tuskegee.edu/alert for transparency and reference.
- **Campus Bulletins & BOLO Notices:** Alerts may also be posted on bulletin boards throughout campus and distributed as "Be On the Look Out" (BOLO) notices to local law enforcement agencies.

Issuance Process

Once the University determines that an alert is necessary, the Information Technology Department distributes the electronic announcement, while TUPD/DPS ensures it is shared across all communication platforms. This multi-channel approach ensures that timely warnings reach the community quickly, comprehensively, and effectively.

DAILY CRIME and FIRE LOG

TUPD maintains a Daily Crime and Fire Log that records, by the date the incident was reported, all crimes, fires, and other serious incidents that occur on campus, in a non-campus building or property, on public property, or within the department's patrol jurisdiction. It is our policy to prepare an annual disclosure of crime statistics via our Annual Security and Fire Safety Report, our Daily Crime Log and on our department's website. The Daily Crime Log is available for public inspection at the department's headquarters.

The Daily Crime Log includes the nature, date, time, and general location of each crime reported to the department, as well as the disposition of the complaint, if this information is known at the time the log is created. The department posts specific incidents in the Daily Crime Log within two business days of receiving a report of an incident and reserves the right to exclude reports from the log in certain circumstances.

31. EMERGENCY PREPAREDNESS, RESPONSE, AND EVACUATION PROCEDURES

Tuskegee University has long recognized the need to be prepared for critical incidents. Under the guidance of the University Safety Committee, various department and offices work together to ensure the University is doing all it can to prepare for, prevent, respond to, and recover from emergencies. In conjunction with local first responders, such as the Tuskegee City Police and Fire Departments and the Macon County Sheriff's Office, the University is well prepared to respond to a full range of critical incidents.

The **Office of Environmental Safety** (Mr. Wilbert Anderson, Safety Officer) and the University Police Department (TUPD) work together to ensure our emergency protocols and plans are updated, as needed, and are applicable as new risks are identified.

The University's emergency planning website, located at www.tuskegee.edu/alert, not only contains important information about what to do during an emergency, but it also outlines the various initiatives underway to enhance preparedness. One such initiative is the Tuskegee University Emergency Notification System. The previous notification system *TigerAlert* was replaced with the current emergency notification called *RAVE*. The TU Police Department is using the *RAVE* platform to notify the campus in case of an emergency by sending alerts via text messages, email and automated call to their phones with just one click.

However, if issuing a notification, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency, the University may decide not to immediately issue the notification. Appropriate University administrators (University Police, or President, President's Cabinet, or Emergency Management) will determine the necessary segment or segments of the campus community to receive an emergency notification(s): such as the entire campus community, or the affected residence hall or halls, or the affected campus building or buildings, determine the content of the notification,

such as the University Police Department will determine how much information is appropriate to disseminate at different points in time to the entire campus community, or the affected area(s).

Part of this information may tell the residents, students, and/or employees to shelter in place or to tell commuter students and employees to stay away from campus; and initiate the notification system.

TU will test (announced or unannounced) the emergency notification system on an annual basis and publicize its emergency response and evacuation procedures in conjunction with its annual test per calendar year. TU will document each annual test, including a description of the exercise, the date, time, and whether it was announced or unannounced.

32. CRIMINAL INCIDENTS ON CAMPUS

The University Police prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report can be located on our website at www.tuskegee.edu/police. This report is prepared in cooperation with the local law enforcement agencies surrounding our campus, Student Housing and Residential Life, the Office of Student Affairs, and the Office of Title IX. Each entity provides updated information on their educational efforts and programs to comply with the Act.

33. Annual Security & Fire Safety Report

In compliance with the Clery Act, Tuskegee University publishes an **Annual Security & Fire Safety Report (ASFSR)**.

- **Distribution:** Each year, after **October 1st**, an email link to the ASFSR is provided to all students, faculty, and staff via:
 - **Campus E-Blast**
 - **TU Secure App**
 - **RAVE Emergency notification system**
 - **Human Resources Management system**
- **Access:** The report is available online as a PDF through the University's official website. Printed copies may be obtained at the **Tuskegee University Police Department Headquarters** located at **1103 W. Montgomery Rd.**

This distribution process ensures that the entire University community is **notified through multiple channels** and has consistent, reliable access to annual safety and crime statistics.

Major crimes reported to the TU Police Department from January through December of the most recent three- year period are listed in this report. TU Police Incident Reports are subject to Alabama's Uniform Crime Reporting Program and the Alabama Open Records Act.

The Code of Alabama (Section 36-12-40) states that every citizen has a right to inspect and take a copy of any public writing of this state, except as otherwise expressly provided by

statute. Disciplinary referrals for violations of the Student Code of Conduct, which may include some criminal offenses specified for this report, are sometimes made directly to the Office of Judicial Affairs (Dean of Students) by individuals or campus organizations other than the TU Police.

Note: Any incidents that may have been reported only to pastoral and professional counselors of the University are generally protected by privacy rights of the client or patient and are not included in any of the following statistics, nor for any timely warning notifications to the campus.

34. OFF-CAMPUS CRIMES AND CASES REPORTED TO OUTSIDE AGENCIES

The Tuskegee University Police department makes a concerted effort to identify and assist in all investigations of criminal offenses involving its students that have been reported to surrounding law enforcement agencies. If they exist during a reporting period, they will be listed in this report.

TUPD also subscribes to an electronic reporting service, "Community Crime Map". This service provided by Lexis-Nexis notifies the Chief of Police daily of any major crime occurring within a one mile radius of the campus. Additionally, a similar service is used for severe weather and any emergency occurring in the neighboring county school district.

35. UNFOUNDED CRIMINAL INCIDENTS

"Unfounded" means that an investigation has shown that the incident or offense did not occur. An offense or incident cannot be "unfounded" just because stolen property was recovered and/or the victim refuses to prosecute, or an arrest was not made.

Definitions of Reportable Crimes

36. The following definitions are drawn from the Clery Act, the U.S. Department of Education, and the FBI's Uniform Crime Reporting (UCR)/National Incident-Based Reporting System (NIBRS). These standardized definitions are used by all colleges and universities in the United States for the purpose of federal crime statistics reporting.

Important Definitions (per the Clery Act)

- **Fire:** Any instance of open flame or other burning occurring in a location not intended for burning, or burning that happens in an uncontrolled manner.
- **Cause of Fire:** The circumstances or factors that initiate a fire. This may include, but is not limited to, human action (intentional or unintentional), mechanical failure, or an act of nature.
- **Fire Drill:** A supervised practice evacuation of a building in response to a simulated fire emergency.
- **Fire-Related Injury:** Any injury sustained as a direct result of a fire. This includes injuries from natural or accidental causes that occur while attempting to control the fire, rescue individuals, or escape from the fire. "Person" includes students, faculty, staff, visitors, firefighters, or any other individuals.
- **Fire-Related Death:** Any death that occurs as a direct result of a fire, including deaths from natural or accidental causes sustained during fire suppression, rescue, or evacuation, as well as deaths within one year of injuries sustained in the fire.
- **Fire Safety System:** Any mechanism or system designed for the detection, alert, or control of fires. This includes sprinkler systems or other fire-suppression systems, stand-alone or networked smoke detectors, audible and visual alarms (bells, sirens, strobe lights), smoke-control mechanisms, and structural components such as fire doors and walls that limit fire spread.
- **Value of Property Damage:** The estimated cost of replacing, in like kind and quantity, any structure or contents damaged by fire. This includes items damaged by flames, smoke, water, or firefighting efforts but excludes indirect losses such as business interruption.

Residence Halls Fire Prevention Information

Fire Safety Equipment

- All residence halls are equipped with **smoke detectors, sprinkler systems, and a central Fire Alarm Control Panel** connected to the TU Police Department.
- Every student room and common area is fitted with a functioning smoke detector.
- **Fire extinguishers** are installed on every floor.

- **Pull-stations** for the fire alarm system are located in each corridor.
- **Tampering with fire safety equipment** (including alarms, detectors, extinguishers, exit signs) or triggering a false alarm is strictly prohibited by law and university policy. Violations may result in disciplinary action up to and including dismissal from residence halls, suspension from the University, and/or criminal prosecution.

Note: If a smoke detector becomes detached or damaged, residents must report it immediately. Failure to report will result in all residents of the affected room being held responsible and subject to fines or disciplinary measures.

Fire Drills and Safety Education

- To comply with **state and local regulations** and to support **fire safety education**, **unannounced fire drills** are conducted each semester.
- All occupants present in the building during a drill must evacuate immediately.
- Failure to evacuate—regardless of the reason (including sleeping through an alarm)—may result in disciplinary action.

Fire Evacuation Procedures

When a fire alarm sounds, you must assume there is an emergency:

1. **Remain calm.**
2. Exit the building immediately via the **nearest safe stairwell**.
3. **Do not use elevators.** Elevators will automatically return to the first floor or be managed by TU Police.
4. Residents with mobility limitations who cannot use stairs should:
 - Exit through the main entrance if they are on the ground floor, OR
 - Proceed to the nearest enclosed stairwell on upper floors and wait safely inside for assistance from emergency personnel or Student Housing & Residence Life staff.
5. After exiting, proceed directly to the designated **assembly point away from the building**.
6. Do not leave the assembly area until directed by TU Police, Tuskegee Fire Department personnel, or authorized University officials.

7. **Re-entry** is permitted only after clearance is given by the Tuskegee Fire Department, TU Police, or designated University staff.

Fire Safety Regulations

Residents must adhere to the following to minimize fire risks:

- Never leave cooking appliances unattended.
- Avoid overloading electrical outlets or circuits.
- **Open flames** (candles, incense, kerosene lamps, etc.) and **flammable liquids or substances** are prohibited.
- **Fireworks** are not permitted on University property.
- Prohibited appliances include **toaster ovens, deep fryers, and any device with an exposed heating element**. All appliances must be **UL-approved**.
- Use only **power strips with built-in circuit breakers**; multi-outlet plugs without breakers are prohibited.
- **Motorcycles, scooters, and other internal-combustion engines** are not allowed inside or adjacent to residential buildings.
- **Bicycles** cannot be stored in hallways or stairwells, attached to fire equipment, or placed in a way that blocks exits.
- **Smoking** is prohibited in all University buildings, including residence hall balconies.
- In the event of a **grease or stove-top fire**, do not attempt to move the container.
 - Turn off the burner and cover the pot with a **metal lid**.
 - For oven fires, turn the oven off and keep the door closed.
- **Halogen and “medusa” lamps** are prohibited.
- Do not hang any objects (including string lights or baskets) from ceilings, balconies, or around exits.
- **Fog machines** are not permitted for any purpose.
- Use of **portable space heaters** must be pre-approved by the Office of Student Housing & Residence Life.

Reporting a Fire

To report a fire, contact:

- **TU Police Department:** (334) 727-8757 or (334) 724-4911 (dial 4911 from an on-campus landline)
- **Tuskegee Fire Department:** (334) 724-2185 or **911**
- A member of the **Student Housing & Residence Life** staff

Fire Log

- The TU Police Department maintains a **publicly accessible Fire Log** that records, by date of report, all fires occurring in on-campus housing facilities.
- The log includes the **nature, date, time, cause, and general location** of each fire reported.
- Fire incidents are posted to the log within **two business days** of the report being received.
- The department reserves the right to withhold details from the public log when release would compromise an ongoing investigation or endanger safety.
